To

Dr Daniel Godoy

Latin American Brain Injury Consortium (LABIC)

*Subject:* Affiliation of SNCC with LABIC

Dear Dr Godoy

Greetings from India.

It's my pleasure mailing you to share about our new society (only 5 years old now!), the **Society of Neurocritical Care (SNCC)**. It's the *first officially registered neurocritical care society in India* and a Global Partner of the **Neurocritical Care Society (NCS)**. We have over 350 members now and a dedicated group of anesthesiologists, critical care experts, neurologists, neurosurgeons, neuroradiologists, pulmonologists, neuropsychologists, nurses and physiotherapists as our members. You may visit our website <http://www.sncc.co.in>

I am pleased to know that you are keen to have LABIC and SNCC affiliated. It would open new opportunities for academic and scientific collaborations, and help in growth of our speciality.

### Memorandum of Understanding

1. The goal of the Society of Neurocritical Care (SNCC), society affiliation, is to encourage collaboration between scientific bodies across the globe interested in Neurocritical Care.
2. The intent is to enhance care of neurologically impaired patients through education, research and training.
3. The affiliation of the societies shall be officially recognized by **displaying society logos** on their respective websites.
4. The affiliated societies in question will **endorse academic activities** of each other, subject to approval by the Board. Events would be endorsed after reviewing the scientific programme. The endorsed events would be announced on websites of affiliated societies.
5. **Discounted membership** fee shall be offered to members of the affiliated societies.
6. **Concessional Registration fee** during the Annual meetings shall be offered to members of the affiliated societies.
7. There will be no other financial commitment between the affiliated societies.

Look forward to your response and decision on the matter.

Best,

Prof. Hemanshu Prabhakar

President SNCC
